Dating of traumatic brain injury in forensic cases using immunohistochemical markers (I)

Outcomes

Physical Abuse

Screening for child abuse by using a checklist and physical examinations in the emergency department led to the detection of more cases. Teeuw AH, Kraan RBJ, van Rijn RR, Bossuyt PMM, Heymans HAS. Acta Paediatr. 2018; [http://doi.org/10.1111/apa.14495](http://doi.org/10.1111/apa.14495) ...p. 20

Sexual Abuse
